e-BRIDGE Job Build

Print Multiple Documents as a Single Set

Toshiba's e-BRIDGE JobBuild expands the capabilities of your Toshiba e-STUDIO Multifunction Peripheral (MFP) by allowing it to combine multiple documents – of various file types, paper types, and document settings – into a single print job. Print multiple copies of each set quickly and easily. Reduce costs by switching between Colour and Black-and-White printing within the same job as needed. Eliminate time-consuming sorting and hand collating.
How It Works

Simply select "e-BRIDGE JobBuild" from the printer list in the print options dialog from your application. Choose the page range, paper size and source, colour or B&W output type, or simplex/duplex options as required. You can print as many documents as you like – each with its own unique print specifications – to e-BRIDGE JobBuild.

Easy-to-use, familiar interface
Printing to e-BRIDGE JobBuild is as easy as printing to your Toshiba MFP.

Total Output Control
Choose the paper handling, image quality, colour mode, and finishing options individually for each source document. e-BRIDGE JobBuild compiles each source document into a single print job, allowing you to produce multiple, collated sets.

e-BRIDGE JobBuild is ideal for:

■ Education – Combine all the documents required for an assignment into a single print job and print as many collated sets as you need.

■ Government – Group documents, publications, lists, instruction sheets and forms together to quickly print all needed documents for a specific task. Switch paper sources on-the-fly to easily print colour-coded multipart forms.

■ Associations & Organisation – Merge newsletters, meeting minutes, publications, membership lists, etc. for distribution.

■ Finance – Easily organise volume printing for departmental distribution switch between Full Colour and economical Black-and-White within the same print job.

■ Corporate – Create coloured, merged and grouped documents for presentations or to distribute among employees and departments.

Requirements

■ Utilises the e-BRIDGE Postscript (PS3 compatible) print driver
■ Supported by the following Toshiba e-STUDIO MFPs:

| e-STUDIO165/205* | e-STUDIO281c/351c/451c | e-STUDIO353/453* |
e-STUDIO167/207/237*	e-STUDIO2500c/3500c/3510c	e-STUDIO3511/4511
e-STUDIO230L/280*	e-STUDIO2820c/3520c/4520c	e-STUDIO520/600/720/850*
e-STUDIO232/282*	e-STUDIO350/450*	e-STUDIO523/603/723/853*
e-STUDIO233/283*	e-STUDIO352/452*	

System Requirements

Display Resolution	1,024 x 768 pixel or more
Display Colour	High colour (16 bit) or higher is recommended

EFFECTIVE DOCUMENTS, PROPERLY DISTRIBUTED FOR LESS COST

Our Solutions enable you to distribute documents more efficiently and with less expense by addressing how you create and output your documents, and present them in their final form.

When coupled with Toshiba e-STUDIO devices, Toshiba's software provides the following benefits:

■ Increased speed and impact of business communications

■ Customised and controlled print job processing

■ Improved workflow and maximised print throughput

■ Flexibility of document management and output

■ The ability to design, create, and deliver electronic documents, forms, and reports

■ Enabled printing and finishing features on Toshiba e-STUDIO devices

Designs and specifications subject to change without notice. For best results and reliable performance, always use supplies manufactured or designated by Toshiba.
